HOW TO ORDER

1. Booking

Simply get in touch and let me know which design you are interested in, and how many you will need of each stationery item. For save the dates I will need to know how many households will be coming to your wedding and for your invitations I will need to know how many households will be coming to your day and evening (or weekend and day/evening). I will then send you a formal quote. If you are happy with this just let me know and then I can send your deposit invoice, which is 50% of the total quote, to secure your booking. I will also send you the date I will start designing for you and my terms and conditions to sign. I will also send you a video or organise a Zoom chat to talk you through Trello. Trello is an organisation app I use to keep track and organise the information needed when designing. Rest assured, it's very easy to use.

3. Designing

For house designs, I will send you up to 3 proofs so we can make your stationery perfect for your day. After the third proof you will be asked to proofread all your stationery before we go to print, to make sure everything is correct and there are no more edits required. It's very important to thoroughly go through this list to make sure your stationery is exactly how you want it; changes after this will be your cost and responsibility. If at this stage your number have changed I will re-quote so you know the final cost.

4. Printing

Just before we go to print I will send you your final invoice, which will have your deposit deducted from it. Printing normally takes 1-3 weeks and I will be in touch once I have a confirmed date for delivery.

5. Delivery

Delivery can take up to a week but normally 2-3 days in the UK. Sending stationery abroad will take longer and this can be discussed at the quoting stage. Your stationery will be tracked, insured and have proof of arrival. For local customers there is the option to collect your stationery from me in Frome.

PRICES

Card and paper and paper costs change rapidly. For this reason please get in touch for prices.

FLORAL SUNSET RANGE

Please note that due to it's arched shape this range is more expensive to print. However, the design can be printed without the arched edge. Please email me for more information.
